Mikey McOrmond

Senior Front-End Software Engineer

EXPERIENCE

Senior Software Engineer

National Oilwell Varco

2018 - 2024 - Houston, TX (Full-Time Remote, Annual Travel)

- Led front-end development for a geospatial search and visualization tool, enabling high-performance, intuitive analysis of multi-gigabyte datasets.
- Contributed across front-end, back-end, UX design, QA, DevOps, and cloud administration to build and integrate a suite of internal applications.

Lead Front-End Software Engineer

Eagledream Technologies

2016 - 2018 - Rochester, NY (Part-Time Remote, Local Travel, On-Site /w Clients)

- Directed development of multiple front-end applications as part of a comprehensive rewrite of a client's SaaS catering management platform.
- Partnered with client stakeholders, led candidate interviews, and mentored developers across employer and client teams.

Front-End Software Engineer

EffectiveUI

2013 - 2016 - Rochester, NY (Part-Time Remote, National Travel, On-Site /w Clients)

- Collaborated with cross-functional teams to deliver enterprise web applications for Fortune 500 clients, serving thousands of users.
- Designed and implemented fluid CSS3 animations and transitions that improved usability and boosted engagement across web and hybrid apps.

Graphic Designer, Web Developer, IT Support

Rochester Appliance

2010 - 2013 - Rochester, NY (Part-Time Remote)

- Rebranded the company with a new website, logo, advertising, and cross-platform e-commerce integration (Magento CE, eBay).
- Boosted SEO to #1 local search ranking and drove revenue growth through high-performing Google Ads campaigns.

Freelance & Experiments

2004 - Present - (Remote, On-Site /w Clients)

- Explored AI/LLM architecture, HuggingFace, and local LLaMA model usage.
- Delivered websites, CMS themes, UI prototypes, branding/print design, and IT support for local small businesses.
